

Full-Scale Fix-Up

In the heart of Boulder, the dream team helps a small home make a bold statement.

After fifty years with its former owner, this 1,800-square-foot Boulder residence was showing all the signs of regular wear and tear.

Working on a tight timeline, PR Builders completed a full-scale remodel—reimagining every detail inside and out to bring the feel of Boulder back into the family home.

Livable Luxury

A full renovation opened up tight quarters on the main level immediately upon entry.

Down to the Details

All hardware, lighting, cabinetry, and flooring were replaced for a sleek, modern finish.

Inside & Out

The new interior was complemented by a full transformation of the home's exterior, deck, and garage.
